

# ACCIÓN

## Sustainable Communities for Climate Action in the Yucatan Peninsula

### Objective

Aumentar la resiliencia climática de comunidades, ecosistemas y sistemas productivos vulnerables en las costas de la Península de Yucatán a través de la adaptación basada en ecosistemas (AbE) y medios de vida sostenibles.

### Components

- 1** EbA actions in coastal and seascapes.

*Sub-grants*

- 2** Financing for sustainability to scale EbA projects.

*Leveraged private finance*

- 3** Knowledge management and coordination with existing public policies and projects.

Conservation and restoration of corals and dunes.	→ Parametric/traditional insurance.
Conservation and restoration of mangroves and seagrasses.	→ Environmental offsets.
Community based enterprises productive activities (small-scale fisheries, tourism, non-timber products).	→ Impact, investments and “credits for impact.”
