Objective

The Fire and Restoration Management Fund (FOMAFUR, acronym in Spanish) aims to finance and strengthen fire protection activities, integrated fire management and the restoration of areas affected by fire in top priority regions for biodiversity in Mexico.

Lines of work

- 1** Fire prevention and protection, and capacity building to implement strategies to reduce fire danger and negative impacts on protected areas (PAs) and their surrounding areas.
- 2** Fire management to conserve and restore fire regimes and reduce negative impacts on biodiversity and its environmental services.
- 3** Restoration of burned areas through the recovery of the structure and functions of affected ecosystems.

Achievements

448 community brigades trained and equipped.

9.9 million hectares protected against fires.

More than **9,700 people** trained in fire protection and fire management.

Data updated at the end of 2022.

Allies

Donor:

- U.S. Forest Service

Partners:

- Comisión Nacional de Áreas Naturales Protegidas
Comisión Nacional Forestal
- Division of Forestry Sciences at the Autonomous University of Chapingo
- Institute of Ecosystems and Sustainability Research at the National Autonomous University of Mexico
- Manantlán Institute of Ecology and Biodiversity Conservation at the University of Guadalajara's South Coast University Center
