## Objective

The Mesoamerican Reef Leadership Program (MAR-L) develops young talent from the four countries of the Mesoamerican Reef System (MAR): Mexico, Belize, Honduras and Guatemala, providing technical capabilities, leadership skills and networking opportunities to implement projects for the conservation and sustainable use of marine and coastal resources.

## Lines of work

- 1 Talent recruitment and capacity building.
- 2 Design and implementation of high-impact projects with the support of experts.

- 3 Networking of leaders and experts in marine and coastal issues.

## Achievements

More than **75** conservation projects incubated.

**144** leaders with developed skills.

More than **two million** people who depend on the health of the reef benefited.

Data updated at the end of 2022.
