

PROJECT | Since 2021

FINANP Sustainable Financing for New Protected Areas

Strategic Objective: Conservation

Photo: Tom Robak

Objective

FINANP aims to ensure that the Protected Areas (PAs) included in the project are effectively managed and that their connectivity and sustainable financing strategies are strengthened. In doing so, they contribute to the sustainable use and protection of Mexico's natural capital by maintaining ecosystem integrity and ensuring the provision of environmental services generated within these areas.

Map: PAs supported by FINANP.

Lines of work

- | | | | | | |
|-----------------|----------------------------------------------------------------------|-----------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|-------------------|---------------------------------------------------------------------|
| Phase I* | 1 Establish effective management of the selected federal PAs. | 2 Promote innovative alliances for integrated land management. | 3 Strengthen the institutional capacity of the National Commission of Natural Protected Areas (CONANP) | Phase II** | 4 Contribute to the financial sustainability of federal PAs. |
|-----------------|----------------------------------------------------------------------|-----------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|-------------------|---------------------------------------------------------------------|

Achievement

More than **120,000 hectares** supported for restoration.

Data updated at the end of 2024.
