Objective

The objective of Conserva Aves Mexico is to contribute to the conservation of threatened, endemic, and/or migratory bird species, as well as their habitats, through the certification or expansion of Areas Voluntarily Designated for Conservation (ADVCs, acronym in Spanish) in priority sites, promoted by local groups interested in implementing financial sustainability strategies that allow them to conserve their territories and the biodiversity they safeguard.

Lines of work

- 1** Conserve priority bird sites through the expansion or certification of a ADVC.
- 2** Conserve endemic, threatened, and/or migratory bird species through the design and implementation of a Management Strategy for ADVCs.
- 3** Implement community initiatives through the design and implementation of a Financial Sustainability Plan for ADVCs.

Allies

- Donors:**
- National Audubon Society (Audubon)
